DISCLOSURES

ACCF faculty, committee members, staff and other individuals who are in a position to control the content of this activity are required to disclose all real or apparent conflicts of interest. All relevant potential conflicts of interest that are identified are thoroughly vetted through a process that includes course directors and appropriate peer review by education committee chairs/members for fair balance, scientific objectivity and validity, patient care and safety recommendations. ACCF staff involved with this program have nothing to disclose. Disclosures can be found at www.acc.org/ERCIV.

Program Overview

Statement of Need

The focused update of the ACC/AHA STEMI guidelines continues to stress that faster times to reperfusion and better systems of care are associated with reductions in morbidity and mortality rates in patients with STEMI. Despite the guidelines and multitudes of data supporting rapid reperfusion therapy for STEMI, the U.S. health care system remains unable to provide reperfusion in a timely fashion to a substantial proportion of eligible patients.

With three times as many Americans dying from acute myocardial infarction than as a result of motor vehicle accidents, there is an urgent need to build and improve STEMI systems of care. The American College of Cardiology Foundation's Emergency Cardiovascular Care conference, now in its third year, offers clinicians an opportunity to learn from experts and their peers about successful approaches to improve STEMI patients' survival rates and quality of life.

Overview

This innovative two-day program will provide evidence-based strategies and the tools to enable multidisciplinary teams to develop, implement and/or improve regional integrated systems for rapid reperfusion in STEMI patients. Our expert faculty will explore a variety of key topics including barriers to effective STEMI systems; strategies for overcoming these barriers; measurement and feedback of STEMI care; primary PCI issues; national, state and regional issues; and the advocacy agenda from the perspectives of cardiology and emergency medicine. This comprehensive and provocative educational program will feature cases, workshops and interactive discussion.

Learner Objectives

The overall goal of this program is to improve the performance of the health care team in the intervention and management of STEMI patients.

Upon completion of this program, attendees should be able to —

- Analyze existing successful STEMI regional plans that are pertinent to a wide array of geographical and political realities
- Describe how participants including nurses, paramedics, hospital and emergency department administrators, emergency physicians, and cardiologists can work to improve STEMI systems of care
- Identify collaborative solutions to overcome existing barriers to coordinated regional STEMI care
- Establish a framework for the accelerated development, enhancement and training of multidisciplinary STEMI teams in their regional practice areas
- Discuss the pros and cons of current system practices
- Analyze team behaviors which impact effective STEMI systems
- Create an action plan which lists available resources, barriers, appropriate strategies and a timeline for effecting change in the current system of care

Target Audience

This program is intended for a multidisciplinary team composed of physicians and nurses/NPs/PAs in acute cardiac care; emergency physicians and nurses; EMS directors and staff teams; cardiovascular and emergency department technologists; administrators and quality improvement professionals; paramedic supervisors and educators; and local, regional and national leaders in cardiac care as it relates to emergency medicine.

Special group registration discounts are available for non-physician care teams registering together.

CHAPTER

This program offers education in the Quality of Care and Outcomes Assessment and Myocardial Ischemia and Infarction Learning Pathways

Friday, May 29

7:00 a.m. Program Registration and Continental Breakfast

8:00 a.m. Welcome
Opening Remarks:
National Implementation of STEMI Systems of Care
Drs. Granger and Jollis and Ms. Roettig

8:15 a.m. State of the System:
Current Practices Survey and Setting the Stage—STEMI Care in Major Metropolitan Cities
Dr. Jollis

8:45 a.m. STEMI Systems: Freeway to the Catheterization Lab

Los Angeles
Dr. Pratt

The Prairie Heart Approach
Springfield
Dr. Aguirre

Real World Challenges
Chicago
Dr. Davidson

9:45 a.m. Break

10:05 a.m. Point/Counterpoint:
Primary PCI Hospitals
The Closest Willing Catheterization Lab vs. Certified STEMI Receiving Centers
Drs. Granger and Henry

10:35 a.m. National Framework for STEMI Systems of Care: Ongoing Programs
Drs. Antman, Jollis and Rokos

11:30 a.m. Lunch

12:30 p.m. Reperfusion Therapy:
The Evidence Behind the Decisions
Dr. Berger

12:45 p.m. Current Regional STEMI Approaches Highlighting Models that Work
Dr. Henry

1:30 p.m. Workshop Session 1 (Select 1)
How to Set Up a Primary PCI Transfer Network
Dr. Henry and Ms. Unger
STEMI System Implementation from the Hospital Perspective
Dr. Berger and Ms. Kline-Rogers
Setting Up a Statewide Trauma-like System for STEMI
Dr. Jollis and Ms. Roettig
EMS Implementation of STEMI Care: 911 to Catheterization Lab
Drs. Garvey and Rokos

3:00 p.m. Break

3:30 p.m. Workshop Session 2 (Select 1)
How to Set Up a Primary PCI Transfer Network
Dr. Henry and Ms. Unger
STEMI System Implementation from the Hospital Perspective
Dr. Berger and Ms. Kline-Rogers
Setting Up a Statewide Trauma-like System for STEMI
Dr. Jollis and Ms. Roettig
EMS Implementation of STEMI Care: 911 to Catheterization Lab
Drs. Garvey and Rokos

5:00 p.m. Adjourn

Saturday, May 30

7:00 a.m.	Registration and Continental Breakfast
7:45 a.m.	Welcome and Overview
8:00 a.m.	ECG in the Field and in the Emergency Department <i>Dr. Garvey</i>
8:20 a.m.	A Report from the NCDR® ACTION: Get with the Guidelines <i>Drs. Peterson and Wright</i>
8:40 a.m.	Legislation: The Role of STEMI System Legislation for EMS and Hospitals <i>Ms. Birnbaum</i>
9:30 a.m.	Break
9:45 a.m.	Workshop 3 (<i>Select 1</i>) How to Optimize Use of the 12-Lead ECG: Acquisition, Interpretation, Activation and Training <i>Drs. Garvey and Rokos</i> ACC State Chapters: How Can They Impact STEMI Systems Development? <i>Dr. Jollis</i> Advanced Practice Nursing Role in Setting Up STEMI Systems of Care <i>Ms. Kline-Rogers and Ms. Roettig</i> Integrating Quality Measures into a Regional STEMI System and ACC's NCDR® ACTION Registry™ <i>Mr. Lynch and Dr. Peterson</i>

11:15 a.m.	Workshop 4 (<i>Select 1</i>) How to Optimize Use of the 12-Lead ECG: Acquisition, Interpretation, Activation and Training <i>Drs. Garvey and Rokos</i> Specifics of Implementing Hypotherapy <i>Dr. Myers and Ms. Unger</i> Advanced Practice Nursing Role in Setting Up STEMI Systems of Care <i>Ms. Kline-Rogers and Ms. Roettig</i> Integrating Quality Measures into a Regional STEMI System and ACC's NCDR® ACTION Registry™ <i>Mr. Lynch and Dr. Peterson</i>
12:30 p.m.	Lunch
1:30 p.m.	Transforming Cardiac Arrest Care: A System's Approach <i>Dr. Myers</i>
2:15 p.m.	Analyzing Effective Team Behaviors through Simulation <i>Dr. Hamman</i>
3:00 p.m.	Team Plans: Tying It All Together <i>Drs. Granger and Jollis and Ms. Roettig</i>
3:45 p.m.	Adjournment

Great Opportunity to attend two exciting programs in one weekend!*

*Following Emergency CV Care programming on Friday night!

The Illinois STEMI Initiative

ACCREDITATION

Physicians

The American College of Cardiology Foundation is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The ACCF designates this educational activity for a maximum of 14 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credits commensurate with the extent of their participation in the activity.

Nurses

The American College of Cardiology Foundation is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

The ACCF designates this educational activity for a maximum of 14 continuing education hours. Requirements for successful completion is attendance in a session in its entirety and completing the evaluation tool. Each attendee should only claim credits commensurate with the extent of their participation in the activity.

While offering credits noted above, the program is not intended to provide extensive training or certification in the field.

ACCOMMODATIONS

Location

All sessions will be held at the Hyatt Regency O'Hare, 9300 Bryn Mawr Avenue, Rosemont, IL 60618. The meeting site telephone number is (847) 696-1234.

Accommodations

To reserve your room at the Hyatt Regency O'Hare, please call (800) 233-1234. Identify yourself as a participant in the American College of Cardiology Foundation program – *ER CV Care 2009*.

Reservations will be accepted by telephone at (800) 233-1234 and online at www.ohare.hyatt.com

Room Rates

The room rate is \$135 plus 13% tax (subject to change) per room night. The ACC room block is scheduled to be held until May 2, but may sell out prior to this date. We advise you to register for this program and reserve your lodging as soon as possible. When you make your reservation, please be sure to ask about early departure fees or cancellation penalties.

GENERAL INFORMATION

Tuition

The registration tuition includes continental breakfasts, refreshment breaks, lunches and the syllabus.

Cancellation, substitution or transfer to another course is allowed if written notification is received four weeks before a scheduled course. A full refund minus a \$100 processing fee will be given for written notifications received fewer than four weeks before the first day of the program. No refund will be given for no-shows.

In the unlikely event that the program is canceled, the College will refund the registration tuition in full but is not responsible for any travel or hotel costs you may incur.

ACCF reserves the right to cancel programs in the unlikely event of insufficient enrollment or other unforeseen circumstances. If a program is canceled or postponed, ACCF will refund registration tuition but cannot be held responsible for other costs or expenses, including cancellation/change penalties assessed by airlines, travel agencies or hotels.

Please Note

Smoking is prohibited in all ACCF meeting rooms.

Videotaping, audiotaping and still photography are prohibited in all ACCF meeting rooms.

We encourage participation by all individuals. If you have a disability, advance notification of any special needs will help us serve you better.

Faculty and program are subject to change without notice. Views expressed in this program are those of the individual speaker and do not necessarily reflect views of the ACCF.

ACKNOWLEDGMENTS

Appreciation is expressed to the following company for its general support of ACCF's 2009 Educational Programming:

At the time of printing, a complete listing of supporters was not available. Appropriate acknowledgment will be updated upon confirmation of support and at the time of the program.

WORKSHOPS FRIDAY, May 29 (Choose two)

- A** How to Set up a Primary PCI Transfer Network
- B** STEMI System Implementation from the Hospital Perspective
- C** Setting up a Statewide Trauma-like System for STEMI
- D** EMS Implementation of STEMI Care: 911 to Catheterization Lab

WORKSHOPS SATURDAY, May 30 (Choose two)

- E** How to Optimize Use of the 12-Lead ECG : Acquisition, Interpretation, Activation and Training
- F** ACC State Chapters: How Can They Impact STEMI Systems Development?
- G** Advanced Practice Nursing Role in Setting Up STEMI Systems of Care
- H** Integrating Quality Measures into a Regional STEMI System and ACC's NCDR[®] ACTION Registry™
- I** Specifics of Implementing Hypotherapy

* Team Care Pricing: The Team Care discount is available for 3 or more associates affiliated with the same hospital or health system. To be eligible for the discount, teams must designate a team contact and register at the same time. Team Care Registrations will be accepted by telephone only and all members of the team MUST be identified at the same time! Individual applications will not be accepted. Proof of licensure required for PA, Tech, RN, CNS & NP; letter from training director needed for Fellow in Training. International registrants are urged to FAX application to ACCF.
